PROJECT 3D DESIGN DISCLAIMER & APPROVAL

ADDRESS:

205 Pawnee Street
Johnson City, TN 37604

PROJECT: Screened In Porch with Fireplace

The CAD drawings and 3D renderings provided are intended **for general visualization and structural reference only**. They are not intended to represent final aesthetics or exact finished conditions. By reviewing and approving these drawings, the client acknowledges and agrees to the following:

1. **Structural Reference Only** – The CAD design is provided to confirm placement of windows, doors, hardware, and other structural elements.
2. **Not a Direct Representation** – The drawings are conceptual and should not be considered an exact depiction of the finished project.
3. **Measurements** – While dimensions are provided for planning, final field measurements may differ slightly and will govern the actual installation. Measurements are for reference purposes only and are approximate.
4. **Colors & Materials** – Colors, finishes, and patterns shown in the CAD images exist only for visualization. Final materials, textures, and colors selected by the customer may vary from what is displayed in the design.
5. **Pattern/Finish Variations** – Any representations of flooring, tile, stone, or other patterned surfaces are approximations and may not match the final installed product.
6. **Revisions** – Homeowner is responsible for reviewing the design carefully and communicating any necessary changes prior to final approval.

By approving the CAD drawings, the client confirms understanding of the above limitations and acknowledges that final construction and materials will take precedence over the digital representation.

Exterior and Interior Suggested Materials

Screened-In Porch with Fireplace – Light and Airy

**TRI-CITIES REMODELING
& CONSTRUCTION CO.**

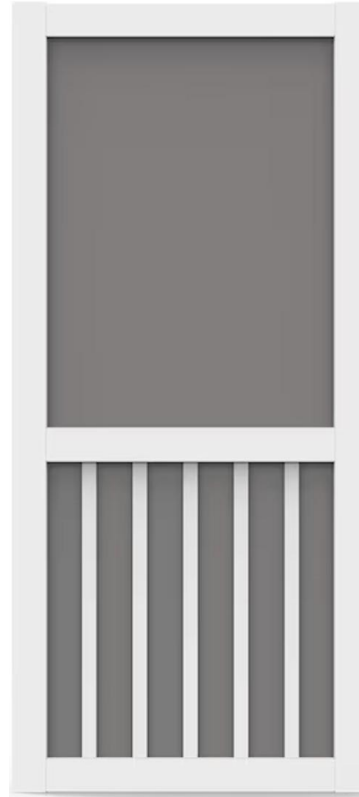

White Siding –

Double 5 in. x 144 in. White Lap Vinyl Siding

Exterior Chimney Brick –

4-in W x 2-in H x 8-in L Cored Concrete Block to be painted same color as main house.

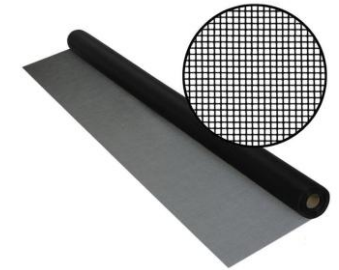

Suggested Screen Door -

Screen Tight 5 Bar Universal reversible 36-in W x 80-in H x 1-in T White Single Hinged Vinyl Screen door with (Handle Included)

Retail \$121 w/tax –
Allowance \$125

- **Roof to match existing house.**
- **Gutter, Soffit and Facia color on new structure can be white to match siding or match existing house.**

Screen Materials –

Phifer SunTex 80 - Best balance of view, airflow, and solar protection

- Color: Charcoal
- Blocks approximately **80% of the sun's heat and glare**
- Excellent daytime privacy
- Great outward visibility
- Keeps the porch noticeably cooler
- Durable vinyl-coated polyester

**Example of Contracted Exterior Look:
Screen Mesh Framing with pressure treated wood.**

Interior Finish Schedule

- **Ceiling Material:** 1 x 6 Tongue-and-Groove Planks
- **Wood Type:** Unfinished Solid Pine Wood
- **All Material Finishes:** Painted in Sherwin-Williams High Reflective White (SW 7757)

Renderings are for reference only. Colors and materials may not reflect exact manufacturer products. Verify all selections with physical samples.

- **Fireplace Surround** - Your budget is around \$5/sq. ft. retail for fireplace stone which means your options are fairly limited. Most manufactured stone veneer runs \$8–15/sq. ft., while premium faux panel systems (GenStone, NextStone, etc.) are typically \$18–20/sq. ft. For an interior fireplace, I'd recommend using **real ledger stone** instead of faux foam panels. The finished product looks substantially more upscale.

Fireplace Surround –
Atlantic Gray Marble Ledger -
\$11.50/sq ft

- **Mantel** - For a premium non-combustible mantel allowance of \$1,000 retail, I would lean toward a fiber-reinforced cement/mineral composite mantel. This whitewash wood-like mantel will add contrast and interest.

Mantel –
Pearl Mantels 72-in W x 5-in H x 7.87-in D
Little River Painted Hollow Composite
Traditional Fireplace Mantel Shelf

- **Hearth** - For a seamless transition from fireplace to floor, a soft gray rectangular porcelain tile with natural marble texture. Monochromatic floor tiles complement the light gray and white stacked stone.

Hearth Tile –
MSI Bellevue Grey 12 in. x 24 in.
Matte Porcelain Limestone
Look Floor Tile

- **Interior Panels** – This beadboard wainscoting kits bring the beauty of authentic beadboard wainscoting, with the ease of a DIY installation. Each kit comes complete with a top and bottom rail, and the appropriate length of beadboard that can be trimmed to the height you need for your project. Unlike MDF wainscoting, our PVC wainscoting kits are safe to use in high humidity areas like bathrooms and can be used on the interior or exterior of your home.

Interior Pony Wall Panels –
Ekena Millwork 5/8 in. x 96 in. x 40 in. PVC Deluxe
Beadboard Wainscoting Molding Kit (for heights up
to 41-5/8 in.)

Renderings are for reference only. Colors and materials may not reflect exact manufacturer products. Verify all selections with physical samples.

Firebox Brick -

Rutland 9-in x 4.5-in Fire Box Bricks
Brown Clay Fire Brick

Firebox and Hearth Tile Mortar -

Rutland 128 fl.
oz. Refractory
Cement Tub

601

Firebox Brick Paint –

Stove Bright Honey Glo
Brown - High Temp Paint
