Number of pumps is confirmed at intake and determines whether additional pump charges apply under Section 4.

2. RESTORATION PACKAGE SELECTED

Select one	Package	Warranty	Individual service value	Package price	You save
	ESSENTIAL Restore it — mechanical + structural renewal	90 days	\$5,325	\$4,100	\$1,225 (23%)
	PREMIUM Restore + refresh it — mechanical + cosmetic restoration	90 days	\$10,552	\$6,300	\$4,252 (40%)
	PLATINUM Restore + modernize it — complete restoration + technology	1 year	\$16,032	\$8,400	\$7,632 (48%)

*Schedule A on the last page lists every service included in each package. **Individual service value** is what the same services would cost if purchased separately at our standard pricing; it is shown for comparison and is not an amount payable.*

3. PRICE AND PAYMENT

Package price (from Section 2)	\$ _____
Additional pumps (Premium only) — _____ pump(s) × \$650	\$ _____
Other agreed work (describe): _____	\$ _____
Sales tax, if applicable	\$ _____
TOTAL CONTRACT PRICE	\$ _____
Deposit due on signing (_____ %)	\$ _____
Balance due before the restored spa is returned	\$ _____

The package price is **flat and all-in** for the services listed in Schedule A for the package selected, and includes round-trip transport and the warranty stated in Section 7. The deposit is due on signing and is applied to the total. The balance is due before the restored spa is returned. Invoicing and payment are handled through QuickBooks; a copy of this signed Agreement accompanies the invoice.

4. WHEN ADDITIONAL CHARGES APPLY

No additional charge applies for any service listed in Schedule A for the package selected. Additional charges apply only in the situations below, and only with the Customer's approval in writing (text or email is sufficient) **before** the additional work is performed:

Additional pumps — Premium only

The Premium package includes **one** new replacement pump. Each additional pump is **\$650**. The Platinum package includes **every** pump in the spa at no additional charge. The Essential package rebuilds all existing pumps rather than replacing them.

Damage found after teardown

Conditions that cannot be seen until the spa is disassembled — a cracked shell, failed electrical components, corroded plumbing beyond the scope of the included work, or rot beyond the frame boards covered by the package. We will stop, document the condition, quote the additional work, and proceed only once you approve.

Parts no longer manufactured

Some components for older spas are discontinued. Where a replacement is unavailable, that item is omitted from the work and its value is credited against the Total Contract Price. Where an equivalent is available at higher cost, we will quote it before ordering.

Difficult access

The price includes a standard on-property move of up to two hours. Craning, fence removal, stair carries, or other non-standard access is quoted separately before scheduling.

5. SCHEDULE, TRANSPORT AND ACCESS

Collection and return. We collect the spa from the service address and return it there when the work is complete. Round-trip transport is included in the package price.

Estimated turnaround. _____ weeks from collection, subject to parts availability and any additional work approved under Section 4. We will notify you of any material change to this estimate. Time is not of the essence in this Agreement.

Customer responsibilities. The Customer will drain the spa before collection where practical, provide clear and safe access for equipment and personnel on both the collection and return dates, and ensure that a suitable, level, prepared site and the correct electrical supply are ready when the spa is returned. Electrical connection and disconnection at the property are the Customer's responsibility unless separately agreed in writing.

Storage. If the spa cannot be returned within _____ days of completion for reasons outside our control, storage may be charged at \$_____ per week, notified in advance.

6. LEAK-FREE GUARANTEE

Before the spa is returned, the plumbing system is pressure-tested at 45 PSI — jet inserts removed and the openings plugged, so the system is pressurised well beyond normal operating pressure. Any leak identified during that test is repaired before delivery.

We guarantee the plumbing system is leak-free at the time the spa is returned to you. If a leak in plumbing we serviced appears during the warranty period, we will repair it at no charge under Section 7.

7. WARRANTY

Coverage. Full-coverage restoration warranty for the period shown for the package selected in Section 2 — **90 days for Essential and Premium, 1 year for Platinum** — beginning on the date the restored spa is returned. The warranty covers the workmanship we performed and the parts we supplied. During the warranty period we will repair or replace covered items at no charge for parts or labour.

The warranty does not cover:

- Damage caused by freezing, improper water chemistry, running the spa dry, or use of unapproved chemicals.
- Damage caused by misuse, accident, animals, weather events, or work performed by anyone other than us after the spa is returned.
- Components we did not supply or service, and pre-existing cosmetic conditions of the shell or cabinet not included in the package selected.
- Normal wear of consumable items such as filters, headrests, water-care cartridges and light bulbs.
- Any condition arising from the Customer declining recommended additional work quoted under Section 4.

Making a claim. Contact us as soon as the issue appears. We may inspect the spa before authorising a repair. Repairs under warranty do not extend the original warranty period.

8. CHANGES AND CANCELLATION

Changes. Any change to the package selected or the work to be performed must be agreed in writing by both parties and will be reflected in a revised invoice.

Cancellation by the Customer. You may cancel at no cost at any time before the spa is collected; the deposit is refunded in full. After collection, you may cancel and the spa will be returned to you, and you will be charged for work already performed and parts already ordered, plus transport. The balance of the deposit is refunded.

Cancellation by us. If on inspection we determine the spa cannot be restored to the standard described — for example a shell crack that cannot be reliably repaired — we will notify you, return the spa at no charge for transport, and refund the deposit in full less any parts already ordered specifically for your spa.

9. GENERAL

Entire agreement. This Agreement, including Schedule A, is the entire agreement between the parties for this work and supersedes any prior quote, brochure or conversation. Marketing materials are illustrative; Schedule A governs what is included.

Limitation of liability. Our total liability under this Agreement is limited to the Total Contract Price. We are not liable for indirect or consequential losses, including loss of use of the spa. Nothing in this Agreement limits liability that cannot be limited by law.

Risk and insurance. The spa is at our risk while in our possession and in transit in our vehicles.

Photographs. We may photograph the spa before, during and after the work for our records. Tick here if you do **not** consent to those photographs being used in our marketing: ☐

Governing law. This Agreement is governed by the laws of the State of _____, and the parties submit to the courts of that state.

BEFORE YOU SIGN — CONFIRM THESE FOUR THINGS

1. The package ticked in Section 2 is the one you want, and you have read its column in Schedule A.
2. The Total Contract Price in Section 3 is filled in and correct.
3. The number of pumps in Section 1 is correct — this decides whether additional pump charges apply (Premium only).
4. You understand nothing extra is charged without your written approval first (Section 4).

10. ACCEPTANCE AND SIGNATURES

By signing below, the Customer confirms they have read this Agreement and Schedule A, understand exactly which services are included in the package selected, and agree to the Total Contract Price and the terms set out above.
